

Agenda

Homework:

- Slope between 2 points worksheet

Materials:

- Math notebook

Do Now:

1. Solve the following on your DESK:

$$-2 + 4$$

$$5 - (-3)$$

$$-2 - (-4)$$

Do Now

$$-2 + 4$$

$$5 - (-3)$$

$$-2 - (-4)$$

$-2 + 4$	$5 - (-3)$	$-2 - (-4)$

Homework

Agenda

- Do Now
- Slope Between 2 Points Discovery Worksheet
- Reflection/Summary

Reflection

- How do you find slope between two points, using a graph?
- How do you find slope using a table?
- How can you ALGEBRAICALLY find the slope given 2 points?
