FOR STUDENTS: All coursework and presentation slides will be uploaded to a **GOOGLE CLASSROOM** page that you will be given access to within the first 2 weeks of school.

Course Description

This course will cover the national Algebra Common Core standards. The QR code on the left will provide you a link to a detailed listing of all the standards

IMPORTANT NOTE: The intention of this course being offered at the 8th grade level is to provide students with a rigorous curriculum that will ensure that they challenge themselves and require them to review and study **DAILY**. It should be made clear that **the grade the student receives for this course WILL carry on to most high schools**. Thus, if the student does not receive a satisfactory score (B or higher) for this course at the end of the year, it is highly advisable that the student retakes Algebra in high school so that their high school GPA will not reflect the grade they received.
