

Agenda

Homework:

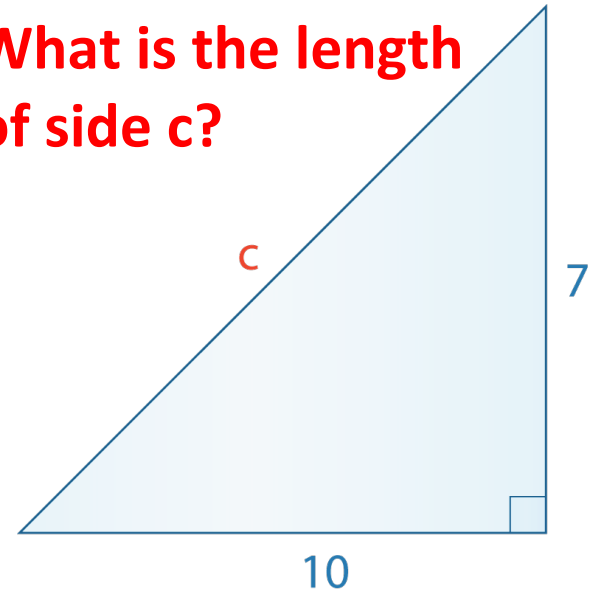

- Compound Area WS
- AM

Materials:

- Notebook
- Calculator (if needed)

Do Now:

- Take out homework
- On the next left page of your notebook:
- What is the length of side c ?

Do Now

- What is the length of side c ?

Set up Cornell Notes

- **Topic:** Perimeter & Area : Rectangles & Triangles
- **EQ:** How do you find the area & perimeter of a rectangle and a triangle?

Update Table of Contents

Date	Topic
3/7/16 (Pd 1 & 2)	Perimeter & Area – Rectangles & Triangles
3/8/16 (Pd 4)	

Let's watch a video 😊

How do you find the area & perimeter of a rectangle?

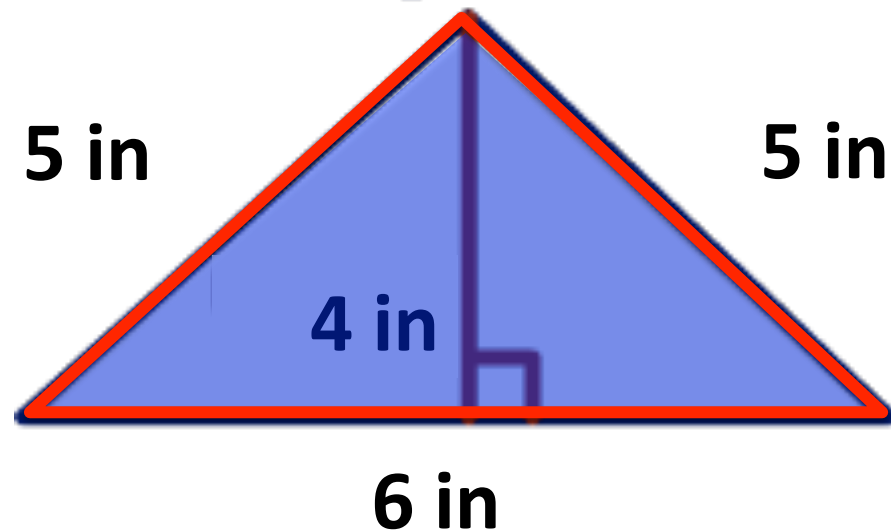

- **Area:** $L \times W = 15\text{cm} \cdot 7\text{cm} = 105 \text{ cm}^2$
- **Perimeter:** $2L + 2W = 2(15\text{cm}) + 2(7\text{cm}) = 44 \text{ cm}$

How do you find the area & perimeter of a triangle?

- **Area:** $\frac{1}{2} (B \times H) = \frac{1}{2} (6\text{in} \cdot 4\text{in}) = \mathbf{12\text{in}^2}$
- **Perimeter:** Sum of all the sides = $5\text{in} + 5\text{in} + 6\text{in} = \mathbf{16\text{in}}$

Agenda

- Work on homework
- If done early
 - Triangle Area Maze Activity Sheet
 - Shaded Area Challenge WS
 - AM

MINI QUIZ

- In your notebook, under the Do Now
- Find the Area & Perimeter of the Triangle
