What is this lesson about?

In this lesson you will learn to interpret linear relationships by analyzing word problems.

Review

A \_\_\_\_\_ is a \_\_\_\_\_ in which  
a rule assigns every \_\_\_\_\_ exactly  
\_\_\_\_\_.

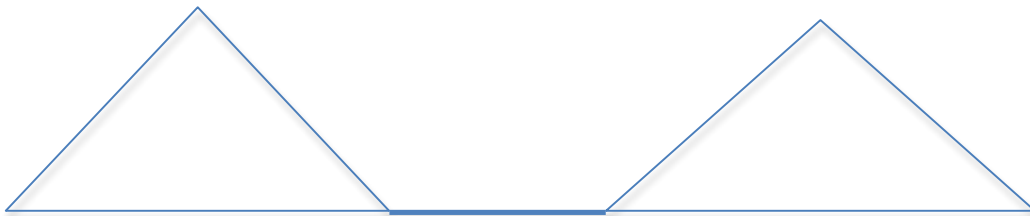

Mistakes to Avoid

Core Lesson (*Write or Draw Pictures*)**Linear Relationships**

1. Initial Value / Starting Point (b): When the input is zero, what is the output?

2. Rate of Change (m): A rate is a type of \_\_\_\_\_ that makes a \_\_\_\_\_  
between \_\_\_\_\_ measurements with \_\_\_\_\_ units.

Word Clues for Rate of Change:

Example of Rate of Change Using Triangles :
